*fixable gaps
across customer journey*

INSIDE THIS REPORT

Your customer's 5-step journey to a booked job.

Where they fall off — and exactly what it costs.

How you compare to **Bronx Plumbing Pros** (your #1 competitor) at every step.

Two clear paths to fix it.

STEP 1 · DISCOVERY

ARE THEY EVEN FINDING YOU?

Invisible Where It Matters Most.

Customers searching 'emergency plumber Bronx' see Bronx Plumbing Pros first. You appear fourth. That single fact costs you more calls than every other problem combined.

#1	Bronx Plumbing Pros 4.6 ★ · 89 reviews
#2	City Drain Experts 4.5 ★ · 67 reviews
#3	Rapid Sewer NYC 4.4 ★ · 112 reviews
#4	Empire Sewer and Water ← YOU 4.8 ★ · 182 reviews

THE MATH

40 emergency searches/day in your area · 38% of clicks go to #1 · 6% go to #4

≈ 13 calls/day routed to Bronx Plumbing Pros instead of you.

HOW TO FIX IT

- 01

Complete your Google Business Profile
Add 30+ recent photos, weekly posts, full service list. Currently 38/100 completeness — competitor is at 92.
- 02

Target neighborhood-level keywords
Build dedicated pages for the 5 NYC boroughs you serve. Right now you're competing for one broad keyword.

RESULT Top-3 ranking in 60–90 days · TIME 4h setup + 1h/week · DIFFICULTY Easy

STEP 2 · FIRST IMPRESSION

WHAT THEY SEE WHEN THEY LAND

Three Seconds.

No Reason to Stay.

Once a customer finds you, they decide in three seconds. Right now you're using those seconds to load a logo. Bronx Plumbing Pros uses theirs to show a phone number.

FACTOR	YOU	BRONX PLUMBING PROS
Time to identify service	3+ sec	1 sec
Phone visible on mobile	Below fold	Above fold
Hero CTA contrast	Low	High
Trust badges visible	0	4
Same-day-service messaging	None	Prominent

THE MATH

25% of visitors who land on your site leave before finding a way to call you. That's roughly \$1,800–\$2,600/month in bounced traffic.

HOW TO FIX IT

- 01Move phone number above the fold (mobile)
Add a sticky 'Call Now — 24/7' bar to the top of every page. Fixes the two biggest issues in the table above — phone visibility and time to identify what you do.
- 02Replace the weak hero CTA with a high-contrast button
One dominant 'Get a Free Estimate' button in a contrasting color. Stop competing with itself — make one action obvious.
- 03Add trust badges + same-day messaging to the hero
License #, BBB rating, insurance, '24/7 emergency service' — all visible in the first screen. Currently zero badges, no urgency cues.

RESULT +20–30% lift in calls from existing traffic · TIME 1h · DIFFICULTY Easy

STEP 3 · TRUST

DO THEY BELIEVE YOU?

182 Reviews. Zero on Your Site.

Every five-star review you've earned over the years is invisible to the person about to decide. Your competitor has half as many — and shows twelve on their homepage.

YOU	BRONX PLUMBING PROS
182 <i>Google reviews collected</i>	89 <i>Google reviews collected</i>
0 <i>displayed on your homepage</i>	12 <i>displayed on their homepage</i>

THE MATH

Sites with embedded reviews convert **up to 35% better**. On your traffic: **\$6,300/month at risk** from hiding your strongest asset.

HOW TO FIX IT

- 01 Embed a live Google Reviews widget**
EmbedSocial or Elfsight — pulls reviews directly. 1-hour install.
- 02 Show '4.8 ★ — 182 Reviews' in header**
Right next to your phone number. Visitors see proof before scrolling.
- 03 Respond to the last 30 reviews**
Currently at 23% response rate. Bring it to 100% in one afternoon.

RESULT Up to 35% more calls from existing visitors · **TIME** 2h · **DIFFICULTY** Easy

STEP 4 · OTHER ISSUES FOUND

WHAT ELSE THE AUDIT SURFACED

Two More Quiet Leaks.

Beyond the three issues already covered, the audit surfaced two more problems specific to how Empire is set up. They are not universal — they showed up because of choices made years ago that quietly leak leads every day.

A**Your brand is split across two URLs**

Your business is registered as 'Empire Sewer and Water' but your site lives at empireplumbers.com. Google reads that as two different brands — your reviews, backlinks, and authority split between URLs that don't reinforce each other.

Impact: –20% organic rankings · ≈ \$4,200/mo at risk

B**You target one zip code in a five-borough city**

One generic homepage. No pages for Manhattan, Queens, Brooklyn, or Yonkers. Bronx Plumbing Pros has dedicated pages for every one — they show up for borough-specific searches, you don't.

Impact: 20% of local searches lost · ≈ \$4,200/mo at risk

COMBINED IMPACT

These two together quietly cost **an additional \$4,000–\$6,000/month**. Both are fixable in under 8 hours of work — domain consolidation via 301 redirects, borough pages built from existing service copy.

YOUR NEXT MOVE
CLOSE THE GAP

Two Ways Forward.

You've seen the site issues. But fixing the site is only half the catch-up plan — content, reviews, SEO timeline, and the actual moves to overtake Bronx Plumbing Pros need more than a PDF can hold. Two ways forward:

OPTION A Fix the Site Yourself. Every site fix in this report is doable. Time: 14–20 hours over 4 weeks. Covers: the site issues only. Doesn't cover: content, reviews, SEO strategy. <i>Work through Steps 1–4 in order. You'll see movement within 60 days.</i>	OPTION B · RECOMMENDED Get the Full Plan. 20-min Zoom — we walk through how to overtake Bronx Plumbing Pros. Includes: the site fixes + content, reviews, SEO timeline. Format: live screen-share, ask anything. Cost: \$0. No pitch, no obligation. <i>If you want us to run the plan afterward, we'll talk price. If not, you keep everything we showed.</i>
