

EXCLUSIVE BRIEFING

FOR ABC PLUMBING — BIRMINGHAM, AL

Mike, your website is bleeding 32% of customers.

Roughly 11 jobs walk out the door every month.
Here's exactly why — and what to do about it.

BY THE NUMBERS

32% *visitors lost*

11 *missed jobs/month*

\$4.8K–7.2K *monthly revenue gap*

7 *fixable problems*

INSIDE THIS REPORT

The 7 problems on your site,
ranked by what they're costing you.

Exact % of customers each problem
is losing — with the math shown.

How you stack up against the top
plumbers in Birmingham.

Step-by-step fixes. Most can be done
in an afternoon.

STORY 01 *Speed*

Eight seconds.

*That's how long your site makes a customer wait.
It's also why one in four of them are leaving.*

-25%

Of every 100 visitors, 25 leave before they even see your site.

That's about 7 service calls a month going to your competitors.

WHAT'S HAPPENING

When someone clicks your site from a Google search, they wait 8 seconds before anything appears.

Google's own research is brutal: 53% of visitors leave a page that takes more than 3 seconds to load on a phone.

Joe's Plumbing — currently ranked #1 in Google for Birmingham — has a site that loads in 1.8 seconds.

HOW TO FIX IT

01 Compress photos

Use tinypng.com. Drag, drop, replace. 5 minutes.

02 Switch hosting

Move from GoDaddy shared to managed WordPress (Kinsta or WP Engine, ~\$30/mo).

03 Remove plugins

Have your web person deactivate the 6 unused plugins.

WHAT YOU'LL GET

Load time goes from 8s to under 2s. Phone calls up roughly 20–30%.

Time: 2–3 hours · Difficulty: Easy with help, Medium DIY
